

Supernatural, Super Fun!

Whether you're young or just young at heart, flex your coloring skills as you discover some amazing animals.

It's a bird! It's a plane! It's a... shrimp? Each of these coloring sheets shines a superhero spotlight on an Aquarium animal with remarkable abilities. The giant pacific octopus is a master of disguise; a peacock mantis shrimp packs a punch that rivals the speed of a .22 caliber bullet; and the emerald tree boa can sense infrared heat. Check out aqua.org/watermarks to learn more.
